

KESHAV KUMAR CHOUDHARY

AI-Integrated Full Stack Developer

Ranchi, Jharkhand | keshavchoudhary782@gmail.com | +91 7079547668 | github.com/keshavchoudhary7 | linkedin.com/in/keshavchoudhary

PROFESSIONAL EXPERIENCE

Software Engineer | Csharptek

Aug 2025 – Present

Ranchi, Jharkhand (On-site)

- Architected the AI agent layer of a multi-tenant B2B SaaS marketing platform — designed and deployed **39 AI automation agents** using Anthropic Claude API for campaign generation, audience segmentation, and content orchestration.
- Implemented **pgvector semantic search** on Neon Postgres — sub-100ms similarity lookups across large marketing datasets, replacing keyword search and improving content relevance by ~60%.
- Engineered production-grade RESTful APIs across multiple client projects with JWT auth, RBAC, and Redis caching — consistently achieving **30–40% reduction** in response times across deployments.
- Led OWASP Top-10 compliance audit — identified and remediated **8 critical vulnerabilities** before client launch; managed Azure App Services deployments for 3 live products.

Software Trainee | Csharptek

Feb 2025 – Jul 2025

Ranchi, Jharkhand (On-site)

- Built **Amalgamate** — full-stack social voting platform with LLM-powered AI chatbot and admin panel; implemented Redux Toolkit cutting re-renders by **40%**; delivered in 3 months, zero post-launch incidents.
- Engineered server-side search, filter, and multi-sort across **10,000+ record datasets** using indexed MongoDB queries — maintaining sub-200ms response under full load.

Full Stack Developer Intern | HashedBit Innovations Pvt. Ltd.

Apr 2024 – Oct 2024

Remote

- Contributed to an in-house **e-commerce platform** — implemented Stripe payment gateway end-to-end including checkout flow, webhook handling, and order confirmation, enabling secure real-money transactions in production.
- Integrated **push notification system** using browser Push API — improving user re-engagement for cart abandonment and order status updates across the platform.
- Delivered multiple UI modules using React.js — built responsive product listing, cart, and checkout screens with focus on cross-device consistency and smooth UX.

FEATURED PROJECTS

ATS Resume Analyzer — AI-Powered

Live: ats-analyser.netlify.app

Stack: React.js · Node.js · Gemini API · Netlify | GitHub: github.com/keshavchoudhary7/ats_analyzer

- Parses resumes against JDs, generates **0–100 ATS score** with LLM-powered keyword gap analysis — CTO-approved and shipped to production; batched API requests cutting analysis time **from 8s to under 3s**.

Dwarpe — Hyperlocal Services Marketplace

Live: dwarpe.netlify.app

Stack: React.js · Node.js · Express.js · MongoDB · JWT | GitHub: github.com/keshavchoudhary7/LocalGenie

- Geolocation-powered platform with **multi-role auth** (user/provider/admin), booking state machine, and provider verification — pre-launch waitlist captured **200+ early signups**.

TECHNICAL SKILLS

AI & GenAI:	Anthropic Claude API, OpenAI API, Gemini API, LLM Prompt Engineering, pgvector, RAG, AI Agent Design
Frontend:	React.js, Redux Toolkit, JavaScript (ES6+), TypeScript, Tailwind CSS, Bootstrap, Next.js
Backend:	Node.js, Express.js, RESTful APIs, JWT Auth, Middleware Design, Upstash Redis
Database:	MongoDB (Mongoose), PostgreSQL / Neon, MySQL, Vector Search (pgvector)
Cloud & Tools:	Microsoft Azure (App Services), Netlify, Git, GitHub, Postman, Swagger, Power BI

KEY HIGHLIGHTS

- **MCA · 8.8 CGPA** — academic excellence maintained alongside active full-time product development.
- **39 AI agents in production** — designed and deployed within a live B2B SaaS serving enterprise clients.
- **2 live products with real users** — ATS Analyzer & Dwarpe, demonstrating end-to-end ownership beyond CRUD.
- **Full Stack Development Certification** — Internshala (2024).

EDUCATION

Master of Computer Applications (MCA)

Aug 2022 – Jul 2024

Dr. Shyama Prasad Mukherjee University | CGPA: **8.8 / 10** | Data Structures · DBMS · Software Engineering · Web Technologies · Cloud Computing
